

Series HD80

Full height tubular handle sets for use with aluminium, steel and solid timber doors comprising:-

2 No. tubes, 2500mm long

4 No. brackets complete with studs, dome nuts and washers

Extruded aluminium tubes have an outside diameter of 40mm and an inside diameter of 30mm giving a wall thickness of 5mm for minimum deflection even in high traffic areas.

Tubes can be cut to suit requirements after door height has been determined.

Extruded aluminium brackets also have a minimum wall thickness of 5mm for rigidity and are capped to conceal the ends of the tubes.

Each bracket is 85mm wide and 39mm high with a projection of 90mm from the door leaf.

Brackets are drilled to accept the 10mm threaded stud for fixing and drilled and tapped for the M5 grub screws that hold the tube firmly in position eliminating rattle.

Finishes

Tube handle sets are available ex-stock in the following finishes:-

Satin silver aluminium anodised

Dark bronze anodised

White polyester powder coated

Mill finish for customers own treatment

Special colours are obtainable to special order. Please contact Sales Office for information.
